

Policy Management and Good Distribution Practice

The Management and BPD Policy Socime Medical is governed by the following principles:

- Ensure compliance with Good Distribution Practice and other relevant legal requirements for the activities it performs;
- Ensure customer satisfaction by meeting the service requirements and legal requirements;
- To discuss the relations with its suppliers in a partnership logic, considering them an integral part of the system, maintaining an evaluation and qualification of the services provided;
- Involve all employees in management and BPD system, being attentive to your needs;
- Ensure the security of the information and the protection of the personal data, safeguarding the rights and duties defined in the current legislation;
- Systematically evaluate the results of the implementation of its system, retaining all the activities to function in accordance with the procedures established by continuously improving the effectiveness of management and BPD System.

As part of the certification process, Socime Medical annually evaluates its suppliers through the analysis of the Non-Conformities and Complaints attributed to them.
